Session 3 Online Homework

1. Read Dabbl Product Handouts document; file a bug/bugs if you find one.

To file bugs, please use http://bugzilla.portnov.com/, credentials sugaring@gmail.com, psw: student.

In the bug report title for Android version, put '**A:**' in front of the title; for iOS version of the app, put '**iOS:**' in front of the title.

Put you first and last name in the beginning of the bug description.

2. Go over 'App Distribution Solutions' document. Get familiar with ones we use and three others that are out of scope of the project. The doc has links to Dabbl test versions.
3. Go over 'Device Farms' document. Practice working with device farms. The doc contains links to the Android and iOS files you need for practicing.

If you do work on a website, create pages related to App Distribution Solutions and Device Farms.
